PROFILE SUMMARY

UI/UX & Graphic Designer who carries designs beyond Figma into working, developer-ready builds — from research and wireframes through to shipped HTML/CSS/JS. Redesigned DesignCafe internal CRM with a pincode-serviceability engine helps associates daily, and designed an AI-assisted admin dashboard design that improved task-monitoring efficiency by 25% in usability testing. Combines visual design, UX research, and hands-on front-end implementation to ship interfaces that are both polished and functional.

CORE SKILLS

Design: UI Design, UX Research, Wireframing, Prototyping, Interaction Design, Design Systems, Visual Identity, Typography, Illustration
AI Tools: ChatGPT, Claude, Gemini — used for rapid wireframing/ideation, UX content generation, and synthesizing user research
Tools: Figma, Adobe XD, Adobe Photoshop, Illustrator, Sketch, Canva, MS Office, Notion, GitHub
Research: User Interviews, Usability Testing, Persona Mapping, A/B Testing, Journey Mapping, Affinity Mapping
Other: HTML/CSS + JS Basics, Design Handoff (Zeplin), Agile Collaboration, Client Presentations

PROJECTS

- **DesignCafe CRM Redesign** (Serviceability Lookup) | HTML, CSS, JavaScript — Identified that associates were manually cross-referencing spreadsheets to confirm service coverage across 23 experience centres — a slow, error-prone step in the lead workflow. Designed a three-tier serviceability lookup (prioritized city lists with an API-driven fallback) and built it directly into the Local CRM's lead detail screen, reducing the check to a single click.
- **MR. Song** (Music Discovery App) | Figma — Ran through research, wireframes, and an interactive prototype for a Ai mood- and language-based music discovery app, focusing the UX on making genre and language filtering feel effortless rather than form-like.
- **PurpleMerit_Eventer** (Event Discovery & Booking App) | Figma — Designed a user-centric event discovery and booking platform— from user flows through wireframes to clickable prototypes — simplifying the path from discovery to confirmed booking.
- **Admin Dashboard UI** (HABOT) | Figma — Designed an AI-assisted admin dashboard with intuitive data visualization for task monitoring; usability testing showed a 25% improvement in task-monitoring efficiency over the prior interface.

PROFESSIONAL EXPERIENCE

- VOICE ASSOCIATE (UI/UX Contributor) | GLOBIVA – DesignCafe, Bengaluru** February 2026 – Present
- Partnered with the Operations to identify recurring CRM usability issues, then designed Locally and helped implement UI/UX improvements by including the pincode serviceability feature that streamlined agent workflows and reduced manual lookup steps.
 - Handle inbound and outbound customer interactions, resolving inquiries efficiently while maintaining high standards of communication, professionalism, and customer satisfaction.
 - Maintain compliance with quality assurance standards by adhering to process guidelines, meeting performance metrics and contributing to continuous service improvements.

INTERNSHIPS

- **Frontend Developer** — Web Development Internship / **MVN Evolution** - Built and styled responsive web pages using HTML, CSS, and JavaScript, translating design mockups into functional front-end components; tested and refined UI behaviour across devices before handoff.
- **UI Designer** — UI/UX Internship / **Verzeo** - Designed wireframes and UI mockups in Figma for assigned practice projects, applying usability and visual-design principles, and iterated on layouts through design reviews and feedback.

EDUCATION

Professional Diploma in UI/UX <i>Bangalore School of Design & Tech</i>	2026 – Present
BE in Computer Science <i>Dr. Mahalingam College of Engineering & Technology, Bengaluru</i>	2021 – 2024
Diploma in Computer Science <i>Hindustan Polytechnic College, Coimbatore</i>	2018 – 2020

CERTIFICATIONS

- UI/UX Internship / **Verzeo** • UI/UX Master Course / **Udemy** • Paper Presentation / **Dr. MCET College** • Tech Talk / **PSG College**
